DRIVING IN LOS ANGELES

BASIC RULES

In the United States, traffic keeps to the right. Although each state sets its own traffic laws, most California traffic laws are the same or similar throughout the country. Drivers must possess a valid U.S. or international driver's license. Speed limits and traffic rules are strictly enforced. If there are no posted signs, the maximum speed is 25 miles per hour on city streets and 65 miles per hour on freeways. California state law requires the use of seat belts in all private vehicles. A right turn on a red light after stopping is permitted unless otherwise indicated.

CELL PHONES

In California, drivers are required by law to use a hands-free device to talk on a cell phone while driving. Sending or reading a text while driving is against the law. This includes text-based communications like e-mails and instant messages. Using your smartphone's GPS or mapping service while driving is permitted, only with the use of a hands-free device.

CHILD SAFETY

Since Jan. 1, 2012, California law requires:

- Children under the age of 8 must be secured in a car seat or booster seat in the back seat.
- Children under the age of 8 who are 4' 9" or taller may be secured by a safety belt in the back seat.
- Children who are 8 years and over shall be properly secured in an appropriate child passenger restraint system or safety belt.

It is illegal to leave a child who is 6 years old or younger unattended in a motor vehicle. Someone who is at least 12 years old must supervise the child/children who are age 6 or under. Significant concerns include health risks (e.g. a locked car on a very hot day) and safety issues (the engine is running or the keys are in the ignition).

PARKING

Vehicles parked in violation of posted regulations are ticketed and towed very quickly. Before you park, be sure to carefully read all signs that state the hours and days when parking restrictions are in effect.

- A red curb means no parking
- A green curb indicates parking for a limited time only
- A white or yellow curb indicates passenger loading and unloading, no parking

Parking is often available in garages or parking lots for a fee. Many restaurants and shopping centers offer valet parking for a fee as well.

TRAFFIC

Traffic is usually heavy on the freeways during morning and evening commutes. Weekday morning rush hour is roughly from 7 a.m. to 10 a.m. The evening rush hour is around 4 p.m. to 7 p.m. and later. When freeways are jammed it's advisable to use surface streets as alternate routes. In L.A. a "surface street" is any street that is not a freeway or limited-access highway (aka expressway).
